---

## Objective

Experienced and motivated Full Stack Developer specializing in designing and developing web applications, real-time data systems, and scalable backend services. Strong passion for problem-solving and system architecture. Seeking a challenging position to leverage expertise in full-stack development for driving business success and enhancing user experiences. Hands-on experience and dedication to staying up-to-date with industry trends make me a valuable asset to any team.

---

## Skills

- Java Programming
  - JavaScript Development Skills
  - Coding Expertise
  - Dynamic Web Interactivity
  - jQuery Integration
  - Node.js Development
  - Proficient in Express.js Development
  - MongoDB Data Modelling
  - SQL Query Optimization
  - PostgreSQL Query Optimization
  - gRPC Implementation Expertise
  - Kafka Message Processing
  - Proficient in Docker
  - Flutter Development
  - Analytical Problem-Solving
  - Effective Collaboration Skills
  - Interpersonal Communication Skills
  - Project Coordination
  - Problem-Solving Analysis
  - Detail-Oriented Approach
  - RESTful APIs development
  - Git version control
  - Testing and debugging
  - Responsive web design
- 

## Professional Experience

### Associate Full Stack Developer

**Behaviour Code Labs Pvt. Ltd. (A subsidiary of Random Forest Technology) | Bhopal, IN**

*September 2024 – Present*

- Engineered PostgreSQL database solutions, integrating with gRPC and Kafka for seamless real-time data processing, significantly enhancing system performance and scalability.
- Developed and implemented advanced user behaviour tracking, session replay, and error tracking features, allowing for deep insights into user interactions and application performance.
- Worked on custom event tracking and heatmap generation for better visualization of user activities across the platform.
- Collaborated with cross-functional teams to optimize system architecture for high availability, fault tolerance, and peak performance, ensuring a seamless user experience.
- Leveraged Docker for containerization, streamlining deployment and ensuring consistency across different environments.

### Full Stack Developer

**Random Forest Technology | Bhopal, IN**

*April 2024 – September 2024*

- Designed and deployed two e-commerce platforms and a POS system, optimizing business operations and enhancing user experience.
- Contributed to the growth of *Behaviour Code* from an internal project to an independent entity, integrating modern backend technologies and improving data analytics.
- Integrated gRPC and Kafka to enable efficient, real-time data processing, improving system responsiveness and reducing latency.
- Led backend improvements, focusing on scalability, and conducted code reviews to maintain high-quality standards across the development process.

## Backend Developer Intern

Random Forest Technology | *Bhopal, IN*

*March 2024 – April 2024*

- Developed and maintained backend services using Node.js, Express.js, and SQL, contributing to the company's core products.
  - Partnered with senior developers to refine backend architecture, optimize performance, and enforce best coding practices.
- 

## Education

IES College of Technology, Bhopal

*Bachelor of Technology in Computer Science Engineering | 2020 – 2024*

CGPA: 7.8/10

---

## Certifications

- Google Cloud Computing | *NPTEL*
  - Back-End Development: Node.js, Express.js & MongoDB | *Udemy*
- 

## Achievements

- LeetCode: Solved 180+ problems
  - HackerRank: Java 5-Star Badge
  - University-Level Volleyball Player | *RGPV, Bhopal* | Winner (2022)
- 

## Extracurricular Activities

- Smart India Hackathon | *Participant* | December 2023
- Smart Satna Hackathon | *Participant* | July 2021
- Team Leader | *Community Support Initiative* | May 2020
